Aya Nagar, Arjan Garh, New Delhi - 110047

SUMMARY

Master's graduate with a strong passion for coding, proficient in frontend, backend, and RESTful APIs. Experienced with databases like MongoDB and MySQL. Always exploring new technologies, I enjoy collaborating with fellow developers and embracing challenges to grow my skills. Looking for opportunities to contribute and expand my knowledge.

EDUCATION

BCIIT (IPU) , Govind Puri

Master of Computer Applications
2022– 2024

JB Knowledge Park (MDU), Faridabad

Bachelor of Computer Applications
2018 – 2021

SKILLS

- **Programming Languages:** Java, JavaScript, HTML, CSS

- **Frameworks & Libraries:** React, Node.js, Express.js, Tailwind, Bootstrap

- **Tools & Technologies:** GitHub, Postman, JSON Web Token (JWT), RESTful APIs, bcrypt.js

- **Methodologies & Design Patterns:** Agile, Scrum, MVC Architecture

CERTIFICATIONS

- The Complete 2024 Web Development Bootcamp - by Dr. Angela Yu

EXPERIENCE

Software Developer Intern

Career Margdarshan | May, 2024 - November, 2024

- Developed and maintained features using ReactJS, NodeJS, and MongoDB to enhance platform functionality.

- Built REST APIs for seamless data integration and optimized backend performance for faster response times.

- Gained hands-on experience in full-stack development and agile project workflows.

PROJECTS

Postify: Blog Application

Live URL | https://postify-s58m.onrender.com/

- Postify is a dynamic blog application where users can explore and engage with blogs across categories like education, business, and sports.

- Users can comment, edit, delete, and like blogs, with login options via email/password or Google (integrated using Firebase).

- Admins have a dashboard to manage users, posts, and comments, enabling them to create, update, and delete blogs while overseeing all website activity.

localBazaa₹ : Full Stack eCommerce App

GitHub URL | https://github.com/SonuNM1/QuickBasket-2

- localBazaa₹ is a mobile-friendly eCommerce platform with JWT-based authentication, allowing users to securely log in and manage their accounts. It includes a forgot password feature that sends an OTP to the user's email for password recovery.

- Users can search products, add them to the cart, and complete orders through a payment gateway.

- The admin dashboard enables full CRUD operations for managing categories, subcategories, and products.
